Rodin Antoinette Le Normand-Romain

Essential for every art lover—the definitive new book on Rodin's life and work.

With more than 350 pictures, many never before seen, *Rodin* reveals, in great beauty and detail, the genius of the man known as the father of modern sculpture. The stories of Rodin's sculptures, well known for their sense of fluidity and movement, are told through each stage of development from plaster casts to the glorious end result.

A world-renowned expert in Rodin's work and a former curator at the Musée Rodin, Antoinette Le Normand-Romain enjoyed unprecedented access to Rodin's archives and the museum's collection in preparing this absorbing new study of the artist's life and works. She details the evolution of Rodin's artistic vision: from the frustration of his early career—he was denied entrance to the *École des Beaux Arts* three times—to his first critical triumph with *The Burghers of Calais* to the twenty years he spent working on *The Gates of Hell*. *Rodin* also includes reproductions of the artist's numerous sketches, emphasizing his ability to capture human movement in two or three strokes of the pen and translate his sketches into final pieces that highlight the unique character of his subjects through their physicality.

This new perspective on Rodin's oeuvre is accompanied by photographs that capture the astonishing details of his works, often in full- and double-page spreads. The photography undertaken for the book showcases the well known—like *The Kiss* and *The Thinker*—and little seen treasures, including many of the artist's plaster models and studies. Images of works in different stages of composition, and of the same work in different versions, provide an intimate look at Rodin's artistic process. With these splendid illustrations accompanying Le Normand-Romain's insightful text, *Rodin* is the new authority on one of the world's greatest artists.
