Fire Department Hydraulics and Resource Central Fire -- Access Card Package (3rd Edition) (Fire Protection Hydraulics and Water Supply) Brent E. Hannig, Eugene E Mahoney

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

--

Now in full color throughout, this extensively updated text provides a complete foundation in fire department hydraulics, explaining how and why water is discharged from nozzles at the correct pressures to effectively fight fires. One step at a time, *FIRE DEPARTMENT HYDRAULICS*, 3/e clearly explains key concepts including the weight of water, friction loss within hoselines, characteristics of municipal water supplies, delivery of water to handlines and master streams, and much more. This edition's many improvements include: new full color diagrams, tables and photos; new safety alerts based on NFFF's life-safety initiatives; coverage of new tank shapes, containers, hoses, testing, and deck gun calculations; more effective organization; and extensive new web-based study resources.
