Foundations of Earth Science (5th Edition) Frederick K. Lutgens, Edward J. Tarbuck, Dennis Tasa

The brief, paperback version of the best-selling *Earth Science* is designed for introductory courses in earth science. This highly visual, non- technical survey emphasizes broad, up-to-date coverage of basic topics and principles in geology, oceanography, meteorology, and astronomy. The text's flexible design lends itself to the diversity of Earth science courses in both content and approach. As in previous editions, the main focus is to foster student understanding of basic earth science principles.
