Anastasia Karandinou

How do digital media (mobile phones, GPS, iPods, portable computers, internet, virtual realities, etc.) affect the way we perceive, inhabit and design space? Why do architects traditionally design, draw and map the visual, as opposed to other types of sensations of space (the sound, the smell, the texture, etc.)? Architecture is not only about the solid, material elements of space; it is also about the invisible, immaterial, intangible elements of space. This book examines the design, representation and reception of the ephemeral in architecture. It discusses how architects map and examine the spatial qualities that these elements create and questions whether - and if so, how - they take them into account in the designing process. Karandinou argues that current interest in the ephemeral in contemporary culture and architecture is related to the evolution of digital media; and that it is related to the new ways of thinking about space and everyday situations that new media enables. With sound and video recording devices now being embedded in everyday gadgets and mobile phones, capturing sounds or ephemeral situations and events has become an everyday habit. New animation techniques allow designers to think about space through time, as they are able to design dynamic and responsive spaces, as well as static spaces explored by someone over time. Contemporary video games are no longer based on a simple visual input and a keyboard; they now involve other senses, movement, and the response of the whole body in space. This book therefore argues that the traditional binary opposition between the sensuous and the digital is currently being reversed. Subsequently, new media can also function as a new tool-to-think-with about space. Designers are now able to think through time, and design spaces accordingly. Time, temporality, ephemerality, become central issues in the designing process. The notion first claimed by Marshall McLuhan in the 1960s, that the emergence of new digital media caused a shift in the sensorium™, is more relevant than ever, and can be expanded in order to accommodate the new emerging technologies. Through analysis of theoretical concepts, design case studies, and real-life observations, this book challenges and inspires architects, theorists, researchers and students both about the above-mentioned series of questions, and also about possible methodologies for addressing them.

**From reader reviews:**

**Jimmy Borrelli:**

In this 21st centuries, people become competitive in most way. By being competitive currently, people have do something to make all of them survives, being in the middle of the crowded place and notice by surrounding. One thing that at times many people have underestimated that for a while is reading. Sure, by reading a publication your ability to survive boost then having chance to stand than other is high. To suit your needs who want to start reading some sort of book, we give you that No Matter: Theories and Practices of the Ephemeral in Architecture (Ashgate Studies in Architecture) book as starter and daily reading reserve. Why, because this book is greater than just a book.

**Marisa Reber:**

The book No Matter: Theories and Practices of the Ephemeral in Architecture (Ashgate Studies in Architecture) has a lot of information on it. So when you check out this book you can get a lot of benefit. The book was published by the very famous author. This articles author makes some research previous to write this book. That book very easy to read you can find the point easily after reading this article book.

**Lois Hernandez:**

Is it you who having spare time in that case spend it whole day by watching television programs or just lying on the bed? Do you need something totally new? This No Matter: Theories and Practices of the Ephemeral in Architecture (Ashgate Studies in Architecture) can be the solution, oh how comes? The new book you know. You are consequently out of date, spending your time by reading in this brand-new era is common not a nerd activity. So what these publications have than the others?

**Barbara Morton:**

As we know that book is important thing to add our expertise for everything. By a guide we can know everything we wish. A book is a pair of written, printed, illustrated or even blank sheet. Every year was exactly added. This publication No Matter: Theories and Practices of the Ephemeral in Architecture (Ashgate Studies in Architecture) was filled concerning science. Spend your spare time to add your knowledge about your scientific research competence. Some people has different feel when they reading any book. If you know how big advantage of a book, you can feel enjoy to read a guide. In the modern era like right now, many ways to get book that you just wanted.
