Chronic Illness as an Access to Quantum Healing: Passing Through the Eye of the Needle into Self-Actualization Jenny Rush

After a number of years of being chronically ill with Lyme disease, Jenny Rush had a momentary realization that she was overlooking a lesson(s) that was resulting in continued ill health. As she went into her last year of dealing with chronic illness at a physical level, Jenny shifted her primary focus from the illness itself to addressing the multitude of experiences that the illness was provoking. This resulted in ongoing shifts in perspective, a process of awakening to her true Self that resulted in quantum healing.

This is a raw, honest and inspiring story that takes the reader through the common struggles of chronic illness such as resistance, resignation, lack of self-worth, loss of identity, suicidal depression, guilt and exhaustion into acceptance, surrender, awakening and true healing. It describes the process of an ordinary person traveling through the eye of the needle into self-realization.

While Jenny's revelations were similar to those described in near death experiences, there were no exotic or elaborate visuals. She was a normal person lying on sofa and staring at cobwebs on the ceiling when she had her first of many epiphenies. This book is for anyone dealing with chronic illness who longs for peace and fulfillment. It is the story of using the experiences of Chronic Illness as an access to Quantum Healing, and of how true healing is available to, and possible for, anyone.
