## **Dreams** Carl Gustav Jung

Author, psychiatrist and scholar, painter, world traveler, and above all visionary dreamer, Carl Jung was one of the great figures of the twentieth century. A comprehensive compilation of his work on dreams, this popular book is without parallel. Skilfully weaving a narrative that encompasses all of his major themes - mysticism, religion, culture and symbolism - Jung brings a wealth of allusion to the collection. He identifies such issues as the filmic quality of some dreams, and the differences between 'personal dreams' - dreams that exist on the individual level - and 'big dreams' - dreams that we *all* experience, that come from the collective unconscious. *Dreams* provides the perfect introduction to his concepts to those unfamiliar with Jung's work. Perfectly illuminating his user-friendly approach to life, *Dreams* is the ideal addition to any Jung collection.
