Now in paperback: “Both a hilarious narrative and an incisive guide to the college admissions process....Ferguson’s storytelling is irresistible” (*The Washington Post*).

Once a straightforward process, applying to college has evolved into a multi-year ordeal and spawned a multi-billion dollar cottage industry of freelance counselors, tutors, essay coaches, interview advisers, and political activists. In *Crazy U*, Ferguson spends time with the most sought-after private counselor, provides a pocket history of higher education in America, looks at the growth of the college marketing industry, and asks: Why the hell does college cost so much, and how can my kid get in?

Writing with humor and humility, Ferguson chronicles his perilous journey through this seemingly impenetrable, hall-of-mirrors process where, it seems, even the slightest misstep could derail his son’s future. *Crazy U* doesn’t divulge the secrets of getting accepted to a dream school, but it will help readers maintain a measure of sanity as they enter the trenches of college admissions.
