Fremont's Greatest Western Exploration Volume 1: The Dalles to Pyramid Lake John L. Stewart, John Charles Fremont

In the years 1843 to 1844, John C. Fremont led one of the most important explorations in our nation's history. It clarified the geology of the western part of the land and helped in the acquisition of the area from Mexico. The first part of his journey followed the route of early emigrants on the Oregon Trail and of the even earlier pathway of Lewis and Clark. Fremont then turned south from the Dalles on the Columbia River into unknown areas of central Oregon, western Nevada, California, and Utah. He negotiated with Indians that never before had seen white men. He defined the limits of the Great Basin, debunked myths, and corrected gross map errors. The initial part of his journey from Kansas to the Dalles is described in order to set the stage for the more important and unique part after leaving the Dalles. Volume 1 ends when he reaches Pyramid Lake in Nevada with a wonderful feast of salmon-trout hosted by Indians. His Report to the Congress, published in 1845, is unlike any other military report and became a best seller in its day! His young wife Jessie, an accomplished writer, is no doubt responsible for its readability. This first volume of the saga, with some parts that relate to the second volume, is meant to re-awaken our citizens to the exploits of this remarkable man. The book makes no pretense in calling this a biography. It is not. It is a word-for-word copy of Fremont's (and Jessie's) own words, with the author's clarifying comments, and with detailed routes shown on modern maps.
