This classic, historical book is a detailed study of the effect of the movement of the planets on human character. Extensively illustrated with explanatory diagrams, forming a complete how-to-guide that is still practical and useful today. A must have for any astrology enthusiast. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
