Witchcraft in Early Modern Europe: Studies in Culture and Belief (Past and Present Publications)

Witchcraft in Early Modern Europe: Studies in Culture and Belief (Past and Present Publications)

This important new collection of essays offers a wide readership both an up-to-date account of the present state of scholarship on early modern European witchcraft and an indication of the direction of new research. The contributors build on and respond to the issues raised in Keith Thomas' classic study *Religion and the Decline of Magic*, and suggest a greater emphasis on cultural history, notably issues of power, gender and language. The essays are European in scope, with examples from Germany, France and the Spanish expansion into the New World, as well as a strong core of English material.
