## **A brief history of "Atoms": What is this world made of?** Vedang Sati

A century ago, experiments involving atoms persuaded scientists to understand the internal structure of atoms. But long before that, scientific thinkers like Democritus and Dalton introduced a model of atom which influenced the modern details. This book is all about the history of atoms and atomic structure. How did Democritus, a Greek philosopher put forward a theory of atoms? How did Dalton explain chemical bonding? And how did we discover electrons and protons? Do we really see them? How did scientific giants like Rutherford, Bohr and Heisenberg influence the model of atom? Get ready to understand what atoms are and how they build up the universe...
