## **North Korea: State of Paranoia (Asian Arguments)** Paul French

Secretive, mysterious, and almost certainly dangerous, North Korea is an object of endless fascination—and worry—for the rest of the world. The world's most inaccessible nuclear power, it retains Gulag-style prison camps, completely blocks Internet access, and forbids citizens to talk to foreigners without approval—which makes the occasional report from a smart, dogged, connected analyst all the more valuable.

*North Korea: State of Paranoia* is just such a report. Drawing on an impressive range of insider sources and previously unseen archival material, Paul French examines the nation and its ruling regime in forensic detail. He offers a close analysis of the history and politics of North Korea; Pyongyang's complex relations with South Korea, Japan, China, and the United States; and the troubling implications of Kim Jong-Un's increasingly belligerent leadership in the years since his father, Kim Jong-il, died.

Straightforward and unsensationalistic, *North Korea* nonetheless paints a picture of a frightening unstable country, one whose sudden collapse could have globally dangerous consequences.
